

I am writing in regard in support of K-LOVE and to protest the possibility that we could lose the station in Austin, Texas if LPFM stations are empowered to force it off the air. K-LOVE is a listener supported Christian station that fills a need in the community that is not met by any other FM radio station. K-LOVE provides contemporary Christian music, as well as programming that encourages and supports Christian values in the community. As a supporter of K-LOVE I would be disappointed if it were no longer available in Austin. It would be an enormous loss to Austin and all other communities that have access to this wonderful radio station.
